William Allen White, the Author, Gives His Version of Woman's Attack.

Emporia, Kan., Nov. 22.—Last evening there appeared in the Emporia Gazette, William Allen White's paper, the author's version of the horsewhipping given him by the divorced wife of Dr. Meffert, in Emporia Saturday night. White says:

"Here is an item that you thought would not be in the paper:

"Saturday evening at dusk, as the editor of the Gazette was starting for home, a few yards from the office door he met Mrs. Della Meffert, divorced wife of William Meffert, of whom mention was made in these columns recently. She was accompanied by a lady friend, and as the Gazette man started to pass, Mrs. Meffert pulled from her cloak a small but effective-looking whip.

"The editor of this paper sidestepped and, what every true gentleman would do, ran 40 yards like a whitehead, back to the office by the back door.

"The calm, dispassionate communion which a man holds with a situation in the sixteenth part of a second convinced the man in question that when a lady challenges a gentleman to an athletic contest of any kind he cannot win a sparring match with any grace, nor be the victor in a wrestling match with a lady with any credit at all, but a footrace is one event in the sporting calendar in which any gentleman may vie his prowess with any lady, and how he did run!

"Shooting the chutes, leaping the gap or looping the loop are clumsy, dilatory tactics compared with the way that fat old codger hiked the hike around the back door of this office."

TWENTY TRAIN CREWS.

More Than Double the Usual Number Now Working Out of La Grande.

There are now 20 train crews working on the Mountain division of the O. R. & N. out of La Grande, more than double the usual number of crews needed on the mountain.

Conductors are being hired, brakemen promoted and men are in demand all the time. The rush of business continues and all the side-tracks at the division points are filled with cars.

The size of the cars is increasing so that but 18 loaded cars now make a load for one engine out of Pendleton, where formerly one engine would handle 25 to 27 of the smaller cars.

Hats Off in Corvallis.

A Corvallis church has introduced a rule that the ladies shall remove their hats during service so that the rest of the congregation will be able to see the minister without stretching their necks in what might be called an extremely undignified manner to gaze over an array of dead birds, etc., etc., says the Salem Journal. If this custom was introduced into the Salem churches it is safe to say not a man in the city would be very angry, and when it is considered, "why should not a lady remove her hat in church as well as in other public places?" For as long as the fair sex will persist in wearing a miniature mountain of filmy stuff for a head-gear they should be considerate enough of other people's feelings not to obstruct their view with it.
